Academic Year 2004

### Advisory Committee

1. Assoc. Prof. Dr. Ruenruthai Sujjapun Chairperson
2. Assoc. Prof. Prateep Watiktinkorn
3. Assistant Prof. Dr. Dhanate Vespada

Sunthon Phu's literary work has its roles in Thai literary works and the language. Thai education has brought the work to develop students' learning in both primary and secondary levels by containing it in Thai language curriculums since the past.

The study of Sunthon Phu's literary work: roles towards Thai education, was to study the process of using it and its influences on Thai education in primary and secondary levels. The study reveals that Thai education has entered the work in textbooks, created classroom activities and been used in the university entrance examinations where the work has been taught, practiced, and used on tests of grammar, poetical language and literary knowledge.

Sunthon Phu's literary work has played a role on Thai education as a model of 'Klon Pad', and a role of emphasizing the concept of poetical language, embedding moral values, and enhancing students' imagination.
